Communication • Time Management • Patience • Continuous Learning • Adaptability • Teamwork • Collaboration

Education Background

- Georgian College
Diploma in Computer Programming
Pursuing
- Smt S.A. Rao Supath E.M.H.S
Secondary School, Science Stream, Mathematics
Completed in 2021

About Me

Passionate and creative Computer Programming enthusiast seeking a web development internship. Strong foundation in programming languages with a keen eye for detail. Thrives in collaborative environments, eager to contribute expertise to real-world projects. Excited to develop skills, tackle challenges, and make a meaningful impact in web development. Seeking to join a team of like-minded individuals focused on innovation and growth.

Projects

MealMate

April 2023

- Created Meal Mate, a Python-based meal planning application for gym enthusiasts, enabling personalized meal plans and grocery lists
- Utilized user input to generate weekly meal plans stored in Excel format, offering a convenient solution for maintaining a healthy diet
- Tailored the application to accommodate dietary preferences and nutritional needs, enhancing user experience and adherence to fitness goals

BCCI!

April 2023

- Developed BCCI (Board of Cricket Control in India), a PHP-based CMS with full CRUD functionality and robust error handling
- Implemented authentication and image uploading features, enhancing user experience and content management capabilities
- Deployed on AWS LAMP server for reliability, scalability, and fully documented on GitHub for accessibility and collaboration

MyCare.com

December 2022

- Designed MyCare.com using HTML, CSS, and 10 % of JavaScript programming languages.
- The MyCare.com website is designed to provide top-notch appointment booking services for healthcare to over 10,000 patients within its first year of operation of the hospital.
- Crafted MyCare.com facilitating online appointments, which will result in a 30% increment in appointment bookings.

Work Experience

Circle K | Customer Service Representative

September 2022

- Mastered exceptional customer service delivery, ensuring satisfaction in a fast-paced retail setting.
- Developed proficiency in accurate cash handling and transactions, maintaining integrity in financial operations.
- Transferred acquired skills to my studies in computer programming, emphasizing problem-solving and attention to detail as essential elements of success.
